Applications, supporting documentation, and essay answers for all residency programs are due no later than
January 4, 2013.

PGY2 Residency in Ambulatory Care

University of Oklahoma College of Pharmacy - Tulsa, OK

PURPOSE. The purpose of this ASHP accredited PGY2 residency in ambulatory care is to prepare the post-doctoral resident to serve as a full-time or adjunct clinical faculty member in an adult or pediatric practice setting.

POSITION. This one year position provides the resident with the academic rank of Clinical Instructor with the University of Oklahoma College of Pharmacy. Practice sites include the pediatric, family medicine, and community outreach clinics affiliated with OU Physicians. Additional experiences are available with the Indian Health Service. The residency will provide opportunities to practice in interdisciplinary as well as pharmacist-managed collaborative practice clinics. The residency program is designed to meet the individual interests and needs of each resident. Residents are required to complete an original research project or participate in an ongoing research project. Additionally, the resident is involved in the education of pharmacy students, resident physicians, medical students, faculty physicians, and other members of the healthcare team.

FACILITIES. The residency is offered and administered by the University of Oklahoma Health Sciences Center College of Pharmacy on the Tulsa Campus. The resident will function as a Clinical Pharmacist in the pediatric and family medicine clinics at the OU Physicians Schusterman Clinic.

PRECEPTORS. The program director is Jeremy Johnson, Pharm.D., BCACP, CDE, BC-ADM. Faculty members with program responsibilities include Michelle Condren, Pharm.D., AE-C, CDE, Brooke Honey, Pharm.D., BCPS, AE-C, Michelle Lamb, Pharm.D., CDE, Katherine O'Neal, Pharm.D., MBA, AE-C, CDE, BC-ADM, Bob John, Pharm.D., BCPS, Ann Lloyd, Pharm.D., BCPS, and Melissa Medina, EdD. The resident will have opportunities during the residency year to interact with other pharmacists, pharmacy residents, and physicians in various specialties.

PROGRAM ACTIVITIES. Longitudinal experiences will include participation in both the pediatric clinic (cystic fibrosis, diabetes, or asthma) and family medicine clinic (pharmacotherapy - emphasis in diabetes, dyslipidemia, and hypertension) along with longitudinal research and educational components of the program. Required month-long rotations are orientation and training (1), pediatrics (2), adult medicine (2), community engagement (1) and research (1). Other required experiences include didactic and experiential teaching for the College of Pharmacy and teaching programs for the OU College of Medicine residents and medical students. Potential elective experiences include internal medicine, psychiatry, anticoagulation, congestive heart failure, cardiology, HIV, community pharmacy based clinics, pediatric diabetes center, pediatric foster care clinic, and pediatric behavior and development clinic.

STIPEND and BENEFITS. The stipend is \$39,500 for the residency year. Residents have 12 vacation days and there are 12 days of holiday time during the residency year. A flexible benefits package is offered by the University of Oklahoma. Time is made available for both interviewing and attending at least one residency conference.

QUALIFICATIONS. Candidates must have a Pharm.D. degree from an ACPE-accredited college or school of pharmacy, completed a PGY1 residency, and demonstrate the personal and professional maturity required of the specialty pharmacy practitioner. Candidates must be eligible for licensure in the state of Oklahoma.
